

The 29th Edition of Thinking about Peace

Declaration of Peace and the Abolition of Nuclear Weapons

A common wish of all humans is to build a world with everlasting peace without repeating the past tragedy of nuclear war.

However, there is an on-going race to manufacture nuclear weapons and the danger of nuclear war looms in the distance.

It is our duty to protect our beautiful earth and peaceful life for our future generations.

We have decided to make an effort to achieve true peace and declare Numazu City as a city for peace and the abolition of nuclear weapons.
